Education

- B.S.c in CSE (2020 – 2024)
Daffodil International University
CGPA: 3.79 out of 4.00
- HSC (2019)
Mirpur Cant' Public School & College
GPA: 5.00 out of 5.00
- SSC (2017)
Monipur High School
GPA: 5.00 out of 5.00

Skills

- **Problem Solving** (400+ problem in C++/python)
- **Language** : C++, Python, PHP, JS, Dart
- **Linux environments** : Ubuntu, PopOS
- **Web Framework** : Laravel, Bootstrap, Tailwind, VueJs, NuxtJs, jQuery, d3Js, NextJs
- Responsive web design
- RESTful API development
- Git version control
- BD: MySQL, PostgreSQL

Language

- English
- Bangla

Abdullah Al Maruf

Full Stack Developer

Dynamic Full Stack Developer with proven expertise at Softograph Ltd, excelling in crafting scalable web applications using Laravel, NuxtJs, NextJs. Adept at problem solving and optimizing performance, I enhance user experiences through responsive design and robust RESTful APIs, driving impactful results in fast-paced environments.

Work Experience

Full Stack Developer at Softograph Ltd (April 2024 – present)

- Developed scalable web applications and dynamic user interfaces using Laravel, Nuxt 3, Vue.js, and Bootstrap, Tailwind.
- Ensured code quality, optimized performance, and collaborated on feature development using Git.
- Integrated third-party APIs to enhance functionality and improve overall user experience on web platforms.
- Enhanced user experience by developing and implementing a responsive front-end interface for web applications.
- Built highly performant RESTful APIs leveraging caching techniques such as Redis and Memcached.

Intern at WizTecBD (Jan 2024 – Mar 2024)

- Built backend APIs, integrated frontend features with React, and developed a CMS for user and role management.
- Implemented key modules like product management, POS, and payment systems using Laravel.
- Designed real-time dashboards and optimized system performance for seamless user experiences.
- Enhanced website functionality by optimizing existing code and implementing new features.

Projects

Jibika (jibika.softograph.com)

Jibika is a full-stack job portal system featuring a Laravel API backend and Nuxt 3-based admin and candidate portals, supporting multi-role authentication and granular permissions. It enables candidates, employers, and admins to manage profiles, jobs, and applications with a modern, secure, and scalable architecture.

BdPetWorld (bdpetworld.com)

Developed a full-stack pet food ecommerce platform: Laravel REST API (catalog, orders, auth, email queue), Nuxt 3 admin dashboard, and Next.js storefront with optimized image handling and OAuth. Implemented modular domain structure, role-based access, dynamic filtering, checkout/cart flows, and reusable UI/components to streamline feature expansion and maintenance.

7SG Survey Management (app.7stagesofgrowth.com)

Full-stack survey management platform: Laravel REST API (Passport OAuth, queues, mail/notifications, PDF exports, RBAC) with a Nuxt 3 SPA (CKEditor, charts, zone-based filters). Delivered dynamic survey creation/assignment, response analytics, and dashboards with automated tests (Pest) for secure, scalable, and maintainable workflows.

Resume-Builder (resume-builder.almaruf67.dev)

A modern resume builder built with Next.js, TypeScript, and Tailwind CSS, featuring live inline editing, drag-and-drop layouts, and multiple polished templates. Includes server-side PDF export, an extensible icon/design system, and a comprehensive Jest test suite for reliability and performance.
